

What are the areas that need further development?

Drop off on 53rd - not enough room - dangerous corner
Overall parking is an issue - street parking during games
- even now is an issue - bringing all the programs together
Teacher involvement needs to increase - needs to be facilitated. ☒
The plaza at 47th and San Pablo - needs further development.
Turn around on 53 needs further thought.
Faux creek needs to be on outside of fence.
K-6 play area needs to be closer to the library.
Being enough bicycle parking - we need sufficient bike parking.
More discussion between ECCL and Emery Bay Village - noise, games, etc..
Need to talk to city planning about the bicycle path - (it's in the general plan).
Work on sound barriers between Emery Bay Village.
Parking - parking - parking.
Relationship between play area, library, and dining room is critical
- one supervisor needs to be able to overlook these areas.
At what point will the environmental study be done? When do we
eliminate the things the community is concerned related to the study.
Make the railing on the second or third floor higher than 42 inches

What are the things that are going in the right direction?

Community Commons - don't change this.
North / South axis - the tweaking and changing of the building layout
Treatment of the San Pablo with open green space and the setbacks - more welcoming.
STEM should be STEAM (art).
I like the flexibility and the flow.
Everything is being aligned with the vision and the goals.
The idea of dividing the play areas - the students have separate areas.
